To Whom it May Concern,

Brandon Hayes from John Diefenbaker S.S, Hanover worked with both the Supply Chain and Finance Divisions at Bruce Power as a part of the high school co-op program for a period of nine weeks. During this time Brandon was on site to explore potential career opportunities and to gain professional knowledge within a large company. While at Bruce Power, Brandon provided his admirable work ethic to many activities. While supporting both Divisions, Brandon has proven his ability to prioritise and accept complete responsibility for the various tasks assigned.

Upgrading our Compressed Gas Storage Facility to a higher standard was one of the major projects that Brandon independently pushed to complete on behalf of Supply Chain's Warehouse Management. Even when faced with obstacles, Brandon walks the talk to ensure that he continuously demonstrates uncompromising high standards. It was clear that Brandon looked for ways to improve our storage practices, and as such has raised the bar for other similar facilities

As a responsible student Brandon was very reliable and exhibited exceptional maturity in his willingness to jump in and support any task. A key to Brandon's success is his strong communication skills which he continually demonstrated in communicating progress, problems and potential delays with many on-going projects.

I am convinced that Brandon possesses the skills and traits that will prove an asset to future employers and will allow him to be successful in his many future endeavours.

Sincerely,

A handwritten signature in black ink, appearing to be 'H Fraser', written over a horizontal line.

**Hal Fraser**  
Department Manager, Supply Chain  
Bruce Power
