Scaled B2B Marketplace to \$7B+ GMV | Built B2B SaaS & AdTech to \$2M+ | AI-Native Product Innovation | 0-to-1 Strategy

RELEVANT EXPERIENCE

Cut+Dry formerly Codify.AI | San Francisco, CA (Remote)

Shopify of Foodservice | VC-backed marketplace & B2B sales enablement platform | E-commerce, AdTech, & catalog automation.

Lead Product Manager

Nov 2023 - Aug 2025

- **0-to-1 Product Strategy:** Launched **AdTech** & **B2B SaaS** platform from scratch; generated **\$2M+** revenue (15% of ARR) and scaled to **1M+** SKUs and **1K+** brands (e.g., General Mills) via rapid prototyping to prove value with <5% resources.
- **Marketplace Strategy:** Orchestrated roadmap for a complex **3-sided marketplace** (Operators, Distributors, Brands), aligning incentives to drive **500x** growth (**100k+** users) and **\$7B+ GMV**, digitizing an underserved offline industry.
- **Strategic Partnerships:** Led end-to-end integration of the **Instacart** Carrot Ad Network, delivering a consumer-grade UI/UX and aligning **20+** cross-functional stakeholders to accelerate the AdTech roadmap by **12+** months.
- **AI-Native Operations:** Built and led a **6+** person cross-functional pod, implementing AI-native workflows with Claude, Figma, and Cursor to reduce development cycles from **weeks to days** while mentoring team members to ownership.
- **Retention:** Shipped multi-party transaction engine (**1.2M+** rewards), aligning **3-sided** unit economics, driving stickiness.
- **Data Infrastructure:** Architected scalable workflow primitives for **1,000+** partners, significantly increasing data quality.

Senior Product Manager

Jun 2022 - Nov 2023

- **AI-Driven Search & Discovery:** Redesigned search & personalization UX to support predictive AI, moving to dynamic recommendations from static search, resulting in a **9%** lift (**\$630M+ GMV**) by leveraging deep customer insights.
- **LLM Productization:** Launched industry-first **LLM sales agent** with **90% adoption**, driving **10x** workflow improvements; designed evaluation frameworks for accuracy and retired underperforming experiments based on production data.
- **Strategic Pivot & PMF:** Diagnosed low engagement via Mixpanel instrumentation and **100+** discovery sessions; paused ad monetization to build a data platform, unlocking a trust loop cited as "**2 years ahead**" of competitors.
- **Product-Led Growth (PLG):** Drove **100+** B2B sign-ups in **27** days by optimizing onboarding flows and reward programs through scrappy prototyping and multivariate A/B experimentation; secured strategic funding and won CEO wager.
- **Executive Alignment:** Presented strategic business reviews to 300+ industry executives; secured 5+ enterprise deals.

Product Manager

Jul 2021 - Jun 2022

- **Logistics & Mobile Scale:** Scaled delivery network **100x** (30 to 3,000+ operators) and optimized driver workflows via native iOS/Android UX redesigns in Figma, improving fulfillment reliability and supporting **Series A** fundraising.

ParkKing | Waterloo, ON

Founder & CEO

Aug 2020 - Jan 2021

- **Market Validation & GTM:** Bootstrapped a dual-sided marketplace for local inventory; led **50+** interviews and utilized lean discovery to evaluate unit economics and market viability, gaining critical lessons in market dynamics.

Wayfair (NYSE: W) | Boston, MA

Data Engineer, Advanced Analytics and Insights (co-op)

Jan 2020 - Apr 2020

- **Data Products & Analytics:** Conducted A/B tests to optimize PDP conversion and built internal scripts and dashboards (Python, SQL, Tableau) that democratized metrics and accelerated decision velocity.

Previously @ GHD, PepsiCo, Mondelēz (2013-2020) | Engineering Consulting, Supply Chain Analytics, Process Optimization.

EDUCATION

University of Waterloo | BAsC, Honours **Management Engineering** (Distinction, Rank 3/70) | Entrepreneurship Minor

SKILLS

Leadership: Product Strategy, Product Roadmapping, Zero-to-One MVP, Multi-Sided Platforms, B2B SaaS, Marketplace Monetization, PMF, PLG, GTM
Tech/Prototyping: Generative UI (VO, Replit), LLMs (Gemini, ChatGPT), Figma, Cursor, Python, SQL, JS/React, GitHub, API Design, System Architecture
AI/ML: LLM integration (OpenAI, Anthropic), Prompt engineering, Model evaluation, Human-in-the-loop (HITL) Processes
Data: SQL, Mixpanel, Tableau, Snowflake, A/B/N Testing & Optimization, Event instrumentation, Product Experimentation, Dashboards, OKRs/KPIs
Execution: Agile/Scrum, User Research, Cross-Functional Leadership, Stakeholder Management, Prioritization (RICE, Kano), Design Systems, Jira
